Small Input- Big Change

Help Needy Underprivileged Children Be The Change Maker

SANKALP EK PRAYAS, an NGO formed in 2008 for ensuring quality education for needy and underprivileged children in rural areas. Sankalp Ek Prayas has become an impactful service oriented group of professionals who are committed in bringing lasting change in the lives of thousands of less fortunate children in naxal affected Chhattisgarh region. SANKALP EK PRAYAS is benefitting most disadvantaged and underprivileged children in the rural areas through its education focused interventions and hopes to continue playing an important role for the better lives of the less fortunate children.

“We SANKALP EK PRAYAS with humanistic ideals in 2008 in a small rented house in Morid village with almost no financial resources for selfless service to those in need. Having no resources, we struggled a lot during initial foundation years. Gradually people began to be understand our services and started supporting our efforts and the number of children at SANKALP grew. Today we are able to serve 10000 children through education centric projects at 50 villages/ units. I appeal you all to come forward and support us in our endeavour as we need whole hearted support for ensuring desired service to children in need.”
